To Whom it may concern

Abilities Without Limits is making a huge impact to ensure that persons with disabilities in South Africa are treated fairly and equally and no less favourably, specific to their specific requirements. It is clear that the vision of this organisation is to ensure that affected peoples' voices are heard, their rights are promoted and that their views are considered when decisions that impact directly on their lives are being made. This approach is in line with the UN Convention on the Rights of Persons with Disabilities (2006). It ensures that individuals or groups of individuals are treated fairly and equally and no less favourably, specific to their reasonable accommodation needs. It is about equal access and opportunities and eliminating discrimination and intolerance for all.
